The next draft report will be revised and presented at the ICN September 13 Board meeting. Final report to be made available Fall, 2017.

Fall, 2017 the Data Workgroup will begin creation of the 2016 IL APN report.

**V. New Business**

Logic models: two logic models were created by ICN Chair C. Hovanec and Vice-Chair K. Delaney:

1. Develop a strategic plan for nursing manpower in Illinois
   Goal: Collect data on nursing workforce supply/demand/production to develop a plan for nursing manpower that informs Illinois health care planners, providers and schools of nursing

2. Convene groups of representatives of nursing, business, consumers to review workforce data, recommend systematic changes
   Goal: Build lines of communication to nursing organizations, providers and state workforce planning organizations that facilitate feedback and commentary on Center data, including strategies for key strategic workforce priorities

Models were reviewed and discussed. These models will be used to focus work.
