

The 2016 RN report is Now Available!!

The Illinois Center for Nursing (ICN) collected responses from 41,194 (23.3%) RN volunteers after they completed on-line license renewal in the Spring 2016. The report contains data on the demographics of the current RN workforce, the relative numbers of RNs in each age group, their cultural diversity, and educational preparation. Based on these findings, issues and concerns for the nursing workforce into the near future are identified. The full report, and past nursing reports, are available on the IDFPR/Illinois Center for Nursing website
