### **Illinois APRN and FPA-APRN Continuing Education Frequently Asked Questions (FAQs)**

The Department has received many inquiries regarding continuing education and in particular the upcoming Advanced Practice Registered Nurse (APRN) and Advanced Practice Registered Nurse – Full Practice Authority (FPA-APRN) license renewal by May 31, 2022. The questions and answers listed below will hopefully provide some clarification. Please note that a complete copy of the Nurse Practice Act and the Rules may be found on the Department's website ([www.idfpr.com](http://www.idfpr.com)) or on the Nursing Workforce Center's website (<http://nursing.illinois.gov/nursepracticeact.asp>).

0. What recent CE requirements are there for Illinois APRNs and FPA-APRNs?
  - a. The implicit bias awareness training CE requirement (HB158, Public Act 102-004) for Illinois APRNs and FPA-APRNs will begin as a license renewal requirement in **2024**. Illinois APRNs and FPA-APRNs are not required to complete implicit bias awareness training as one of 80 hours of CE required for license renewal in 2022. The law was passed, the Rules with detail are not yet final.
  - b. Sexual harassment prevention training CE requirement. A law passed in 2019 that went into effect on 1/1/20, which requires individuals with licenses issued by the Division of Professional Regulation (DPR) that require continuing education (CE) to renew their license to also complete 1 hour of CE on the topic of sexual harassment prevention training. This CE requirement is included in the number of hours already required under the individual Acts and Rules and does not increase the number of hours required to renew a license. One (1) hour of sexual harassment prevention training CE course is intended to fit into the APRN and FPA-APRN licensee's regular CE requirements. 1 of the 80 hours of CE required for APRN and FPA-APRN license renewal must be a sexual harassment prevention training course.
  - c. Beginning with the **2024** APRN and FPA-APRN renewal, Illinois APRNs and FPA-APRNs who provide health care services to and have direct patient interaction with adults 26 years of age and older will be required to complete a one-hour course in diagnosis, treatment and care of Alzheimer's disease, along with other dementia types. CE Curriculum will involve how to identify and diagnose Alzheimer's, effective communication strategies and management and care planning. This course may count toward the regular CE requirements (Public Act 102-0399, 20 ILCS 2105/2105-365).
